

## CORPORATE HEALTH AND SAFETY STATEMENT

SOUTH EAST CONSTRUCTION is committed to a strong Health, Safety and Environmental Program that protects our employees, subcontractors, clients, property and members of the public from harm.

SOUTH EAST CONSTRUCTION believes all incidents are preventable. Our goal is ZERO incidents. The commitment to, and active participation in implementing our Health, Safety and Environmental Program, at all levels, ensures that our goal can be achieved.

SOUTH EAST CONSTRUCTION supports all workers in their right to work in a safe and healthy environment and their right and responsibility to refuse unsafe work

SOUTH EAST CONSTRUCTION employees and all other workers on our projects are responsible for cooperating with management in the implementation of the Health, Safety & Environmental Program, and for participating in work site inspections, incident investigations and equipment maintenance in an effort to continuously improve the program.

SOUTH EAST CONSTRUCTION management, employees and subcontractors are responsible to comply with all local government occupational health, safety and environmental regulations and standards.

SOUTH EAST CONSTRUCTION endeavours to provide proper and relevant employee training, job-specific safe work practices, personal protective equipment, operation and maintenance procedures and safety guidelines that focus management, employee and subcontractor awareness on reducing the risk of incidents in all activities

SOUTH EAST CONSTRUCTION is committed to protect the environment in all aspects of our operations.

Mike Silvernagle  
Chief Operating Officer
